

Journal of Electronics, Electromedical Engineering, and Medical Informatics

Volume 4, Issue 4, October 2022

List of Content

In this issue, all articles include authors from 3 universities in Indonesia (Poltekkes Kemenkes Surabaya, Indonesia; Marine Electrical Engineering, Shipbuilding of Politechnic Surabaya, Indonesia; Universitas Mercu Buana, Jakarta, Indonesia) and 4 universities from overseas (College of Computer Science and Information Technology, Jazan University, Jizan, Saudi Arabia; New LJ Institute of Engineering and Technology, Gujarat Technological University, S.G. Highway, Ahmedabad, Gujarat, India; Faculty of Information Technology, Angiang University, Vietnam; Faculty of Integrated Technologies, Universiti Brunei Darussalam, Brunei Darussalam)

A Review on EMI Issues in High speed Designs and Solutions

Uma Maheswari Y, Amudha A, Ashok Kumar L

191-203

Reduction of Feature Extraction for COVID-19 CXR using Depthwise Separable Convolution Network

Zendi Iklima, Trie Maya Kadarina, Rinto Priambodo

204-209

Design and Build a Distance and Heart Rate Monitoring System on a Dynamic Bike Integrated with Power Generating System

Anggara Trisna Nugraha

210-215

Planning a Protection Coordination System Against Over Current Relays and Ground Fault Relays Using the NN Method

Siti Zaibah, Anggara Trisna Nugraha, Fortunaviaza Habib Ainudin

216-222

Comparative Analysis of PID and Fuzzy Temperature Control System on Infant Warmer

Abdul Majid, Endang Dian Setioningsih, Abd Kholiq, Singgih Yudha Setiawan,

Anilkumar Suthar

223-228

Enhancing Digital Filtering to Electrocardiogram Analysis: Butterworth Filter Application

Nindia Rena Saputri, Sari Luthfiah, Dyah Titisari, Bedjo Utomo, Lusiana Lusiana,

Triwiyanto Triwiyanto, Faheem Ahmad Reegu

229-236

Analysis of the Effectiveness of Using Digital Filters in Electronic Stethoscopes

Andi Fathkur Rohman, Muhammad Ridha Mak'ruf, Triwiyanto Triwiyanto, Lamidi Lamidi, Phuoc-Hai Huynh

237-243
