

Journal of Electronics, Electromedical Engineering, and Medical Informatics

Volume 5, Issue 2, April 2023

List of Content

In this issue, all articles include authors from **6 universities** in Indonesia (Department of Informatics, Universitas Islam Indonesia, **Yogyakarta**; Technology of Telecommunication Network Engineering, Politeknik Caltex **Riau**; Biomedical Engineering Telkom University, Jalan Telekomunikasi **Bandung**; Electrical Engineering, Jalan Telekomunikasi Bandung; Department of Master of Public Health, Faculty of Public Health, Diponegoro University, **Semarang**; Department of Biostatistics and Demography, Faculty of Public Health, Diponegoro University, Semarang; Department of Environmental Health, Faculty of Public Health, Diponegoro University, Semarang; Department of Biomedical Engineering, Institut Teknologi Sepuluh Nopember, **Surabaya**; Poltekkes Kemenkes Surakarta, **Surakarta**) and **6 universities** from overseas (ECE Department, Kamaraj College of Engineering and Technology, Virudhunagar-625701, TamilNadu, **India**; ECE Department, FET, Gurukula Kangri (Deemed to be University), Haridwar-249404, Uttarakhand, **India**; Health Technologies Engineering Department, Research Group in Biomedical Engineering and Pharmaceutical Sciences, ENSAM, Mohammed V University, Agdal, **Morocco**; Section d'Environnement et Développement Durable, Institut Supérieur des Etudes Agronomiques de KIYAKA-GUNGU, Gungu, **Democratic Republic of Congo**; Faculty of Computer Science, Université Catholique du Congo, Kinshasa, **Democratic Republic of Congo**; Centre de Recherche Interdisciplinaire de l'Université Pédagogique Nationale, Université Pédagogique Nationale, Kinshasa, **Democratic Republic of Congo**).

Hybrid $\beta\Omega$ -Indexing Fractal Slotted Multiband Antenna for Electronics Wireless Sensor Applications

Atul Varshney, Prasanthi Kumari, Devasis Pradhan, Prasanna Kumar Sahu

59-68

Pre-SEMMS: A Design of Prepaid Smart Energy Meter Monitoring System for Household Uses Based on Internet of Things

Kurniawan D. Irianto

69-74

Malignant Detection of Breast Nodules On BIRADS-Based Ultrasound Images Margin, Orientation, And Posterior

Yuli Triyani, Wahyuni Khabzli, Wiwin Styorini

75-81

Classification of Normal and Abnormal Heart Sounds Using Empirical Mode Decomposition and First Order Statistic

Hilman Fauzi, Achmad Rizal, Mazaya 'Aqila, Alvin Oktarianto, Ziani Said

82-88

Design of Low Vision Electronic Glasses with Image Processing Capabilities Using Raspberry Pi

- Rachmad Setiawan, Rayhan Akmal Fadlurahman, Nada Fitrieyatul Hikmah 89-98
- Tensile Strength of Coconut Coir Fiber Composite as an Alternative Material to Replace Fiberglass in Hard Socket**
Nur Rachmat, Atika Febri Anggriani, Ahmad Hisyam, Doddy Suprayogi 99-107
- Development of Health Screening Information System for Elementary School Children at Dalam Kaum Sambas Public Health Center, Sambas Regency - West Kalimantan**
Saherman Mohammad, Farid Agushyana, Mursid Raharjo 108-118
- Evaluation of two biometric access control systems using the Susceptible-Infected-Recovered model**
Bopatriciat BOLUMA MANGATA, Odette Sangupamba Mwilu, Patience Ryan Tebua Tene, Gilgen Mate Landry 119-124
